To help you pass the Pre-Entrance Competencies of Medical Terminology and Math for Meds, it is strongly suggested that you obtain the following books and study the recommended information.

1. Dean Vaughn, *Medical Terminology 350*, Second Edition, Published by DCM/
Instructional System (ISBN 0914901125): Approximate Cost **\$ 23.45**
 - Study entire book and memorize all 350 terms. Learning roots, prefixes, and suffixes will help you figure out and understand most medical terms.
 - Purchase one month of lab time in the Health Science Learning Clinic to view Medical Terminology videos that correspond with the text book lessons.Approximate Cost **\$ 30.00**

2. *Henke's Med-Math*, Sixth Edition, Published by DCM/Instructional System
(ISBN 0781776287): Approximate Cost **\$ 45.93**
 - Study ALL Chapters except 8 and 9, with a special emphasis on Chapter 4.
 - Memorize the reference card inside the back cover.
 - Calculators may not be used for the test.
 - Tutoring help available (free of charge) by appointment only in the Health Science Department.
